

Great Talent Brings Great Talent – Start Referring Today

Dear Team,

The strongest teams are built through trusted connections, and the best talent often comes through people who know us best — **you**.

We are excited to launch our **Employee Referral Campaign — Bring Great Minds On Board** — and invite you to refer talented professionals from your network to SG Analytics.

At SGA, Referrals are more than a hiring channel; they reflect our culture, trust, and shared commitment to building exceptional teams. Your recommendation can help us connect with professionals who share our values and contribute to our continued growth.

Who are we looking for?

Experienced professionals across business and support functions who are driven, curious, and passionate making an impact.

How you can participate:

- Refer suitable candidates for open roles
- Submit referrals through the SG Analytics referral portal
- Recommend professionals who align with our requirements and culture

Great people know great people — and it could start with you.

Let's continue building the future of SG Analytics together, one referral at a time.

Regards,

Corporate Communications Team
SG Analytics

Your Network. Your Recommendation. Our Growth.
